- **Operating Systems:** Windows, UNIX, Linux
- **Tools:** Nmap, Nessus, Wireshark, Burp Suite

EDUCATION

Western Governor's University | Salt Lake City, Utah

12/2021

Master of Science in Cyber Security and Information Assurance

- **Capstone Project:** "Implementing Zero-Trust Security to Secure a Remote Work Environment"
Designed a security solution to mitigate risks by adopting a Zero Trust Security Framework to secure a perimeter-less corporate network, business critical applications, and data from cyberattacks based on the standards and concepts found in the NIST Special Publication 800-207, Zero Architecture.
- **Relevant Coursework:** Secure Software Design, Secure Network Design, Forensics and Network Intrusion, Cybersecurity Management, Ethical Hacking, Information Security and Assurance, Cybersecurity Architecture and Engineering
- **Clubs and Organizations:** WGU Cyber Club – NCL Leadership Team, WGU Women in Technology

University of NC at Greensboro

05/1992

Bachelor of Science in Management Information Systems

CYBER SECURITY COMPETITIONS

- **National Cyber League – Spring 2021 Season**
Individual Game: (Bronze Bracket) National Rank: 2389/4180; Percentile: 43rd.
Bronze Bracket Rank: 644/2093; Percentile: 70th.
- **National Cyber League – Fall 2021 Season**
Individual Game: National Rank: 1633/6478 Percentile: 75th.
Team Game (WGU Cyber Club | Team NERV): National Rank: 98/3910; Percentile: 98th.

CERTIFICATIONS

- CompTIA Security+ | CompTIA
- Certified Ethical Hacker (CEH) | EC-Council
- Certified Hacking Forensic Investigator (CHFI) -In Process (February 2022) | EC- Council

PROFESSIONAL EXPERIENCE

Web Application Developer, Syngenta Crop Protection | Greensboro, NC 03/2001 – 04/2004

- Developed and maintained web-based applications for idea management, project planning, budgeting, and employee time tracking.
- Cultivated and maintained Visual Basic 6.0 console application to interface with SAP and export data into Oracle and SQL server databases.
- Enhanced and supported intranet application used for managing, shipping, and receiving research samples inventory.
- Conducted data manipulation and development of reports and report templates for different applications using Cognos Impromptu and MS Excel 2000 with VBA.

Application Developer, Inmar Enterprise | Winston-Salem, NC 09/1999- 03/2001

- Designed, developed, and maintained a Coupon Management e-Business application using leading edge software and technology.
- Developed modules that enabled clients to retrieve and manipulate Coupon Promotions data based on complex criteria.
- Developed user friendly modules that allowed clients to personalize and format their webpage layout and information displayed on webpage.
- Developed COM components written in Visual Basic 6.0 using COM+ to manage and distribute the objects on Windows 2000 Advanced Server and Professional Platforms.

RELATED VOLUNTEER EXPERIENCE

Volunteer OSINT Analyst, Trace Labs 06/2021

- Participant in a Global OSINT search party CTF for real missing persons.

Coding Camp Instructor, Habitat for Humanity of Forsyth County 07/2020

- Developed and taught curriculum for the Youth Empowerment Program that introduced coding concepts and various programming languages for students in grades 7 – 12. Introduced students to career options in STEM.
